

Domain Awareness Presentations – Student Guidelines

(Mandatory for All Teams)

Objective

The objective of this activity is to build **strong domain understanding** before working on applications in the healthcare domain.

This is **NOT a technical or coding presentation**.

This is about understanding **how the healthcare domain works** and **why systems exist**.

Team Structure

Team	Members
Team 1	6
Team 2	6
Team 3	6
Team 4	5
Total students	23

Every member must actively participate and speak

Overall Time Plan (STRICT – Total 3 Hours)

Item	Time
Team 1 Presentation	45 mins
Team 2 Presentation	45 mins
Team 3 Presentation	45 mins
Team 4 Presentation	40 mins
Buffer / Transition	5 mins
Total	180 mins (3 Hours)

Teams exceeding their allotted time will be stopped.

Time Split Per Team

Teams 1, 2, 3 (6 members – 45 mins each)

Activity	Time
Presentation	30 mins
Q&A	15 mins
Speaking time per member	~5 mins

Team 4 (5 members – 40 mins total)

Activity	Time
Presentation	30 mins
Q&A	10 mins
Speaking time per member	~6 mins

Participation Rules (Mandatory)

- Every member must:
 - Speak during the presentation
 - Own at least **one topic/sub-topic**
- Group presentation only (no single speaker dominance)
- Slides ≠ speaking; explanation matters

Slide & Content Rules (All Teams)

- **Slides:** 8–10 (maximum)
- **Language:** Simple, clear, business-friendly
- **Examples:** Fictional / real-world (generic)
- **Audience:** Fellow developers

Team-Wise Topics

TEAM 1

Healthcare Ecosystem & Fundamentals

Focus: Understanding the healthcare world and its actors.

Topics

- What is a healthcare services ecosystem
- Key actors:
 - Member / Patient
 - Provider
 - Service organizations
- Clinical vs Non-Clinical care
- High-level healthcare journey (conceptual)

For listeners:

"I understand where healthcare systems fit in real life."

TEAM 2

Business Workflows & Processes in Healthcare

Focus: Understanding how healthcare work progresses over time.

Topics

- What is a business workflow
- Long-running and review-based processes
- Human involvement in decision-making
- Common states:
 - Pending
 - In Review
 - Approved / Rejected
- Exception and rework scenarios

For listeners:

"I understand why healthcare processes take time."

TEAM 3

Healthcare Data, Privacy & Responsibility

Focus: Understanding why healthcare data is sensitive.

Topics

- Types of healthcare data (conceptual)
- Why privacy and confidentiality matter
- Data access responsibility
- Importance of audit and traceability
- Consequences of data mishandling (high level)

For listeners:

"I understand why healthcare data must be protected."

TEAM 4

Key Healthcare Service Areas & Their Purpose

Focus: Understanding what healthcare services exist and why they exist.

Topics

- Pharmacy & medication-related services
- Care coordination concepts
- Behavioral and wellness support
- Post-acute and recovery care
- Preventive & primary care
- How these services work together as an ecosystem

For listeners:

"I understand what kinds of healthcare services systems support."

Mandatory Final Slide (All Teams)

Slide title:

“Why this domain knowledge matters”

Each team should explain:

- Why understanding their topic is important
- How it helps professionals work better (non-technical)

Evaluation Criteria (High-Level)

- Clarity of explanation
- Domain understanding
- Logical structure and flow
- Real-world relevance
- Equal participation
