

Full Stack Developer Training Program

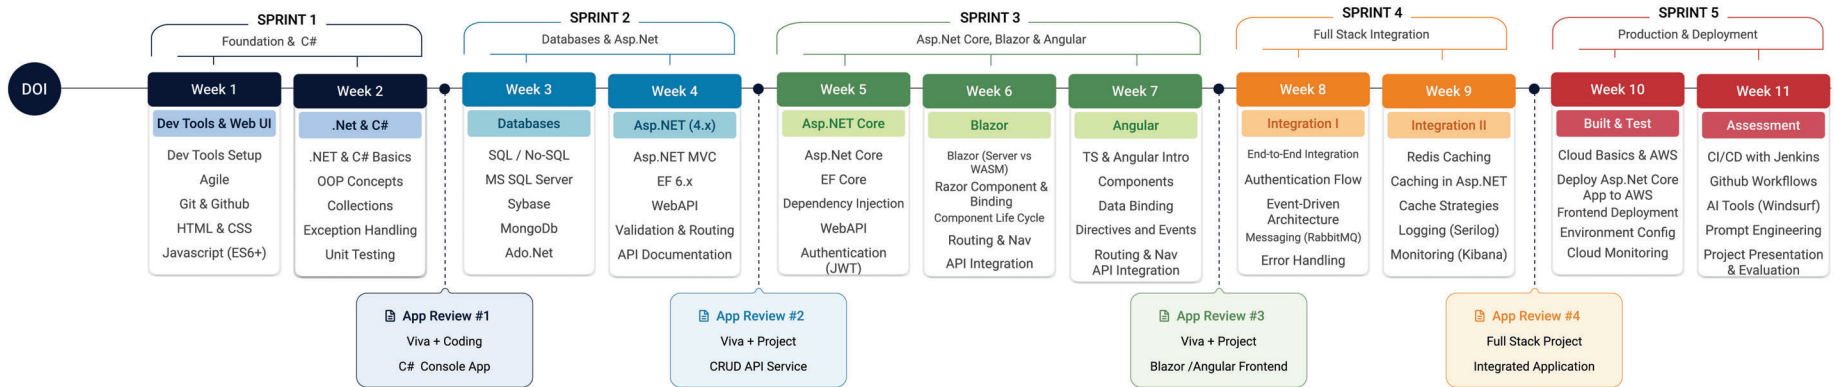

5 Sprints • 11 Weeks • Assessment Every 2 Weeks

Master .Net, Asp.NET, Angular, Blazor by building a production-ready application with industry best practices

📅 Duration: 11 Weeks (5 Sprints)

📊 Assessment: Every 2 Weeks

🏆 Outcome: Job-ready Full Stack Developer

FINAL APPLICATION & ASSESSMENT

Enterprise Task Manager

Production-Ready

✔ Secure Authentication

✔ Database Integration

✔ Full CRUD Operations

✔ Deployed Application

✔ React Dashboard UI

✔ Test coverage > 80%

✔ RESTful API Backend

✔ Documentation

FINAL ASSESSMENT

Demo + Viva +
Code Review

Sprint Focus & Deliverables

Sprint 1: Foundation & C#

- ✔ Development environment setup
- ✔ C# OOP Fundamentals
- ✔ Clean code practices
- ✔ Console-based applications

Deliverable: C# Mini Project

Sprint 2: Asp.MVC & ORM

- ✔ Databases & Asp.NET MVC
- ✔ ORM and EntityFramework
- ✔ Asp.NET WebAPI
- ✔ Model Binding/Validation/Routing/Documentation

Deliverable: Asp.NET CRUD API / MVC

Sprint 3: Asp.NET Core / Blazor / Angular

- ✔ Asp.NET Core and EF Core
- ✔ Blazor Components & Routing
- ✔ Angular Components & Http Client
- ✔ Authentication & Authorization

Deliverable: React SPA

Sprint 4: Full Stack Integration

- ✔ End-to-end Integration
- ✔ JWT Authentication flow
- ✔ Event Driven Architecture & Messaging
- ✔ Redis Caching, Logging & Monitoring

Deliverable: Integrated Full Stack App

Sprint 5: Production & Deployment

- ✔ Testing & bug resolution
- ✔ Production build
- ✔ Cloud deployment
- ✔ Technical documentation

Deliverable: Production Application

Technology Stack
